

LFD - LARGE FORMAT DISPLAYS

DIGITAL SIGNAGE - SHARE YOUR STORY

iiyama's professional large format signage displays are ideally suited to be used as signage and information displays in different industries and environments such as retail, business, education, transportation, health care and many others.

They come in a wide range of sizes (from 28" up to 98") and with different resolutions, features and specifications. Landscape and portrait friendly and with operating times up to 24 hours a day. Our LFD displays can be mounted according to the application for the most optimal fit, performance and maximum exposure, ensuring the best impact and effect.
