

Universal soundbar bracket for floor lifts and wall mounts

Upgrade the audio of your iiyama floor lift/ wall mounted large format display with this universal soundbar bracket and enjoy a better sound. The soundbar bracket allows you to install and use a soundbar below the display on our (height-adjustable) floor lifts and wall mounts. The soundbar bracket is mounted in between the back plate and the display using the display's lower VESA mounting bolts.

The bracket has a VESA width of 400/600. Max. distance between center lower VESA mounting holes and center soundbar mounting holes is 515mm. The bracket can be used in combination with an adapter set for displays with a larger VESA mounting pattern. Works with most soundbars.
